The screenshot shows the website swissATV.ch, which is part of the IAPC group. The top navigation bar includes links for Home, News, Activités, Hardware, Académie, and Labs, along with a search bar and a font size control. Below the navigation, there are filters for categories (All, News, Labs, Tests, Hardware, Software, Académie) and sorting options (Default, Title, Date, Random). The main content area features a grid of four news articles:

- A-Tech 2014 Automne** (2014-10-22 09:50:46) with a photo of a workshop.
- DATV-Express DVB-T 1 MHz** (2014-10-13 11:10:14) with a photo of a circuit board.
- H264 DigiThin** (2014-10-01 17:23:43) with a photo of a circuit board.
- DVB-T2, le standard pour...** (2014-08-15 12:30:06) with a photo of a tablet displaying "i-TAB DTV".

Below the grid, there is a "Hardware" section with five featured items, each with a "Read More" button:

- SR-Systems
- MK808 Digitale
- BATC DTX1
- AGAF
- Hides USB DVB-T

Good hack !
